U.S. IN WAR WITH GERMANY

Another Undeclared War

THE NATIONAL WHIRLIGIG

News Behind the News

WASHINGTON

By RAY TUCKER

SPECIFIC—In a private memo to the State Department the French government recently revealed that it entertains a slight skepticism about American proclamations and protestations of neutrality in the present war. Paris apparently regards the United States as an ally.

Because of the British blockade, Uncle Sam's Weather Bureau at Washington no longer receives from belligerent or neutral vessels advance information about coming storms. Ships which once relayed valuable weather data to this and other capitals have discontinued the service for fear that they might give away their positions to lurking submarines or raiders. To fill in this gap, Secretary Morgenthau has sent out several Coast Guard cutters as weather reporters, and they forward their reports in regular code to Washington.

Now comes Paris to protest that these messages about conditions at sea furnish valuable information to the Germans in their submarine warfare. Therefore the French have asked that Mr. Morgenthau's weather experts send in their tips in a secret code which Berlin cannot break down.

Power

If every community in the nation could put a delegation of intelligent men and women back of the scenes in Washington for a week or two, there would be a sharp change in our belief that we're keeping out of the war. Countless small indices would be totaled to a jarring picture.

They would learn that the pattern of 1916-17, streamlined, is being followed at every key point. The streamlining is sharp and clear. This time the Secretary of State is pathetically out of the policy making picture. The Secretary of the Treasury is Man Friday to the Boss. The Department of Justice is headed by a favorite for succession to the Presidency. The War Department head is taking punishment as an independent—his assistant runs the job. The Postmaster General performs his statutory duties as a free man. The Navy Department's head is in temporary and nominal occupancy only. Dictatorship is de facto—not open and advertised, as overseas.

Most probable successor to Mr. Edison has been told that he can have the chair if he understands that authority rests at the White House and not in Constitution ave. The form of the qualificiation gives old-timers a certain sardonic pleasure.

Revival

After several years of going along with the New Deal, the Supreme Court has again split into two factions. In a recent tax case—Helvering versus Wood—F.D.R.'s appointees lined up solidly against veteran members of the tribunal.

Dictatorship By Roosevelt's Court

For several years the Administration has begged Congress to plug the tax hole under which a husband reduced his income payments by setting up a short-term trust in his wife's name. The legislators, however, have stubbornly refused to block this method of tax evasion. So the majority on the Court, in an opinion delivered by Justice Douglas, rushed in where the legislative branch has refused to tread. F.D.R.'s jurists closed the loophole. They said, in effect, that they were tired of sitting around and waiting for Congress to act.

Messrs Hughes, Roberts and McReynolds dissented. They branded the majority opinion as an attempt at legislation and a usurpation of the powers which belong to Congress. Now that the Court appears to be secure against Presidential tampering, it is believed that the conservative minority will assert itself more vigorously than it has since the early days of the New Deal.—Tribune-Sun, San Diego, April 1, 1940.

RADIO TALK over KGB (dial 1330)
Thursday 8:30 P. M. - April 4, 1940

James Hervey Johnson

Christ teaches us to love our enemies and those who love fair play advise us to give the devil his due. Therefore it need not come as a surprise to you when I am calling attention to the candidacy of James Hervey Johnson, which he announced in a recent issue of the PROGRESS-JOURNAL where he writes a column, for supervisor in the second district against Le Roy Richards. James Hervey is a man who is not afraid of hell and high water once he made up his mind to what he wants to do. He has struck a most popular cord in the hearts of the small home owners and of those who want to build their homes, by asking in a letter to the County Board of Supervisors of San Diego for a grand jury investigation of the building racket, charging conspiracy between labor unions, the building inspection department, contractors and building material supply houses. If Jimmie keeps on harping on this string he will dig up enough dirt to elect himself county supervisor.

Jewish Merchants Miss A Bet

And continuing to follow the teachings of Christ I must call attention to the fact that somebody is missing a grand opportunity for advertising his merchandise and business in Southern California before the largest Jewish audience in this part of the state. From reports which have come to me, this program has attracted a surprisingly deep interest in the Jewish population of Southern California. They listen in not only in our county but up in Hollywood. An enterprising businessman could profitably sponsor a period adjacent to my programs to advertise his services or his wares to his Jewish customers. There are lines of business which cater especially to that kind of trade.

Was Jesus a Jew ?

A San Diego attorney, well known in Republican circles, took issue with me concerning my statement that Jesus of Nazareth was not a Jew racially, but only by adoption. He challenged me to produce historic proof, especially by quoting New Testiment sources. I did. You will find it in this week's issue of THE BROOM.

U. S. Supreme Court on Jesus Christ

And while we are on religious topics it will interest you to read what Chief Justice Hughes and Associate Justices of the Supreme Court McReynolds & Stone said about constitutional guarantees for religious freedom to worship God and their views about the crucifixion of Jesus Christ. This article will appear in next Monday's issue of THE BROOM.

Radio Costs Money

People have asked me who is paying for this radio program. I am paying for it from the revenues of THE BROOM and from voluntary contributions made by those of my radio audience who want me to continue this type of work.

Sovereign Individual

I have also been asked whether I imagine that just one voice in San Diego over this station that reaches only a small part of the state, will effect a change in the policy of the national administration which was so well characterized by Mrs. Eleanor Roosevelt when she said that that the United States has no reason for entering the war—as yet. Have you not heard the same argument by other defeatist citizens who said what's the use of voting, a person has only one vote and that one vote won't change the election. Exactly the same reason why it is important that the individual citizen register his one vote, is the reason why I keep announcing my attitude in important public affairs. This is America, my friends. In America the individual citizen is superior to the whole government of the state in which he lives and to the national administration. It is time that we study our principles of government in America. The citizen is sovereign. There is no sovereign above him, save God. The government officials are his servants, not his boss. He has not only the right, but the duty to tell his servants what he wants done, he hires them and pays them, and when they do not obey his will it is his duty in self defense to call attention to the acts of those who were hired under false pretenses. And so it matters little that I happen to be in the minority, or only one voice who speaks up in meeting, if the things I say are true, the truth prevails and it makes no difference how long it takes for the truth to become effective. The majority will have to accept the truth or suffer the consequences and don't we suffer the

STRIKE AT KLAUBER WANGENHEIM CO. FAILS TO DISRUPT BUSINESS

A jurisdictional strike between the AFL teamster union and the CIO warehousemen union for the "right" to organize the employees of Klauber Wangenheim Co. in San Diego, failed to produce a tie-up at the wholesale & distributing store. Four AFL truckdrivers responded last Wednesday to the call to strike and one CIO warehouseman. The men were immediately replaced by the management and business continued as usual.

In Los Angeles a sympathy strike was called at the Klauber Wangenheim Co. store and there the number of strikers was much greater, producing a dislocation of distribution during the first day. But replacements proceeded satisfactorily and the strikers are the losers in the end.

FOUND A SENSIBLE JEW

Upholds Freedom of the Press

Had a talk with the chief executive of a large San Diego concern who decided to resume advertising in THE BROOM after holding it up for a while to investigate the charges of "spreading religious and race hatred" brought to his attention. Said he: "I received a postal card and also a letter, signed anonymously A SAN DIEGO JEW, threatening us with boycott if we continued advertising in your paper. I took the matter up with a local Jewish newspaperman, I don't want you to publish his name (he named him) and this is what he said:

'From the articles I read in THE BROOM de Aryan is taking issue with the Kikes and the International Jews. I am no Kike and no International Jew. He has no quarrel with me. I am an American.'

"I am not going to worry about an issue where a Jew who knows the newspaper game refuses to get excited about it", remarked the executive.

I had met the person referred to in the office of an automobile concern in East San Diego while both of us were soliciting Easter advertising and received it. This Jew was exceedingly friendly so it struck me with surprise. I am so used to sullen looks and icy stares during the last months that I wondered why.

It should be evident to any reasoning being that when an editor is being dictated to what to publish and what not to publish under threat of extinction he has no alternative but to hit back and to the mark, harder than ever to prove his integrity and liberty of action.

OSCAR KNECHT WANTS LAST WORD

Got Hit in Right Spot !

Dear Mr. de Aryan:

Just read your article relative to "Knecht's Responsibility", in the April 1st issue of The Broom. In answer I wish to say that it appears to me that you are making a personal issue of the affair. If you can show me a prominent architect who said I was in a pickle, I will show you five real architects to state otherwise. (This is a challenge).

You say I wanted to be fair to the contractor. That's not the story. I want to be fair to all parties concerned. Why do you say that I gave the contractor all possible leaway? I, or rather my deputy building inspector, had to allow the contractor the time permitted by law, as no time of completion is covered by our Code and the building was not approved for occupancy, you can readily see that if I had stepped in and forced the contractor contrary to Code requirements, he could take court action against me. We follow the same procedure on ALL buildings under construction.

I am not answering any more of the articles but would suggest that you learn the law in the matter and be sure that you state the facts.

Yours truly,
OSCAR G. KNECHT, Chief Inspector.

HE'LL GET U. S. THERE

Mrs. FDR Can't See U. S. in War—Yet !

The first lady, said she never believed in being a prophet but saw "no reason for our getting into the war—as yet."

The President's wife, keeping mum on politics, expressed the opinion the United States was unlikely to enter the European war.

She explained as she arrvied to fill a lecture engagement that no one knew what change in the situation might come and that was why she qualified her statement by "—as yet".

WHO STOLE THE JEWELS

Dear Kosti:

Like unto the "Village Schoolmaster":
"And still they gazed, and still the wonder grew,
That one small head could carry all he knew."

You are doing a good work!

A recent book, "Herod", by Minchin, (sounds like a Jewish name), says: "Herod was dead four years before Jesus was born." I investigated Brit. Encycl. and found this: "Herod: born 75 B. C., died 4 B. C." Now read Matt. 2-1.

Freud, in his book, published since his death, says Moses was not a Jew, but an Egyptian; that Pharoah inspired Moses to lead the Jews out of Egypt. The "Borrowing" of jewels, money, etc, from Egyptians was Moses' idea, and the pursuit was to regain the loot. I forget who said this last, but the same writer said Moses was son of the finder Princess.—E. C.

Bob Graham, Pacific Beach editor, is back at his desk bossing the NORTH SHORE SENTINEL after a vacation that took some time. We never figured that he would stay away for good. Once an editor, and his own boss, the call brings them back again. Young folks have lots of ideas but it takes old bucks to buck this cruel world and lick it.

Declared a legal paper of general circulation for the County and City of San Diego, by Superior Court order, January 15, 1932.

A PLEA & A WARNING ! !
Why Import Labor Troubles ?

The warfare between two organized labor factions is being brought to San Diego by outsiders who are imported for that purpose. We are to witness the struggle between Dave Beck and Harry Bridges for the control of our industries and we shall pay the price. The organized and unorganized workers are to be the immediate targets of this tug of war, while the industries involved are made the goat.

San Diego is emerging with an improved record in the building line. Instead of lowering that record it should be sustained to continue on the up-grade. But already the Dennstedt Co. is being made the first guinea pig by outside racketeers for the control of the building trades. Klauber Wangenheim Co. are an example in the wholesale grocery business. This is merely the start. Why is San Digo labor foolish enough to partake of this tug of war? The workers are the first ones affected who lose wages and jobs. And outsiders are being imported by the warring factions to make trouble here.

It is to be hoped that the Chief of Police keeps a close tab on all imported labor thugs and fingerprints them, if necessary, to get their record. Local labor has demonstrated in the past that it is moderately law abiding, but the outsiders spell trouble.

IN A NUTSHELL

Labor is awakening to the fact that laws which kill business also kill jobs.

The Executive Council of the American Federation of Labor recently made this declaration: "We urge that all Government actions that tend unnecessarily to discourage business expansion cease and that a positive effort be made to encourage greater industrial activity . . . At this time there are not enough jobs in private industry to go around . . . This is largely due, in our opinion, to the fact that lack of confidence has stunted business growth and expansion."

Any policy, any law, or any political clique which fights and discourages private industry, fights and discourages employment. That's the case in a nutshell—and it's a good sign that labor is recognizing it.

DENNSTEDT CO. CAUGHT IN JURISDICTIONAL LABOR STRIFE

All Building Industries to Be Involved

Since the CIO decided to organize the building industries in San Diego, the AFL tried to jump the gun by asking immediate signing of contracts with their group. First one to be chosen for this compulsory alignment is The Dennstedt Co., builders of homes in San Diego. Since the company cannot force its employees to belong to any union without making themselves liable for violation of the California Labor Code, the AFL have decided to picket the ten building projects now under construction by The Dennstedt Co. in various parts of the city and county. The strike is to be extended to all builders in San Diego county if the racketeers succeed to get control in the Dennstedt case.

GOVERNMENT GROWN TOO GREAT

"The people of the United States will begin their real recovery from the depression when they demand that a curb be placed upon government grown too great," said Wendel L. Willkie recently. "In the past ten years there was only one major activity in this country which showed any real expansion: the United States Government. Government employment has increased nearly 100 per cent; government expenditures have increased nearly 200 per cent, now amounting to over $9,000,000,000; government borrowing has increased over 150 per cent . . . It has enormously added to its powers over our lives, and it has largely delegated those powers to Federal commissioners who are not responsible to the people nor to the Congress."

Elsewhere in his talk, Mr. Willkie observed that years ago a great economic and social battle was directed against unscrupulous men and business of wealth, and against the concentration of economic and monopolistic power in a few private hands. Today a far more dangerous situation has arisen with the deliberate concentration of power in the hands of those who run the government. Political as well as economic democracy is in danger. Every liberty, every right, which the people relinquish makes the authority of officialism greater and more strongly intrenched. The giving of sweeping powers to government is invariably the road to distatorship, and it is a road that once traversed to any great extent is seldom retraced short of revolution.

Never did government so dominate our lives. We have created commissions by the score and vested them with an unprecedented combination of legislative, executive and judicial authority. We have permitted the creation and extension of a gigantc bureaucracy which is a direct menace to the perpetuation of democratic, representative government. Here is the primary issue the nation faces today—and it never faced a more vital one.

ADMIRATION

Sunshine in your eyes, my kid,
Do attract me quite a bit.
Brilliant hair and smiling mouth,
Make me praise your beauty loud.

Sunshine in your heart, my flame,
Makes still dearer to me your name.
But your eyes like morning dew,
Cause me to see none but you.

—Otto Schkoelziger.

LOWER FOOD COSTS IN OPEN-SHOP LOS ANGELES

Higher Real Wages There for Workers Than Where Closed Shop Cuts Pay Check

LOS ANGELES—Lower living costs in open-shop Los Angeles—proverbial throughout the nation—make workers' real wages here higher than elsewhere.

Particularly is the contrast marked in comparative costs at other large industrial centers of the Coast—San Francisco, Seattle, Portland—where closed shop takes continuous toll of every housewife's family budget.

The proof is in the food cost survey of Bureau of Labor Statistics of U. S. Department of Labor.

"NONSENSE AND RABBLE ROUSING"

The merchandising methods in effect in Sweden have been much praised in this country. Apparently Sweden has gone beyond other European countries in building up a merchandising system which efficiently serves both consumer and producer.

A short time ago the foreign secretary of the Kooperative Forbundet, a leading Swedish wholesale cooperative, paid a visit to this country. On being told of the pending Patman Bill, whose sole purpose is the destruction of the American chain store industry, he expressed amazement. And he said that such proposals are "simply nonsense and rabble rousing", and opposed to economic progress.

The visitor from Sweden realized thoroughly that you can't give the people the best service at the lowest price and at the same time pass laws which are designed to destroy or hamstring one kind of retailer on the theory that another retailer will be helped. And it's high time the American people as a whole recognized that too. No one has to patronize a chain store who doesn't want to—under the open competitive system, the customer trades where he pleases. And no one can deny that chains have made extremely valuable contributions to the welfare of the consumer in improving merchandising practices all along the line. They have been of special value to the small town, by helping to keep business at home which was moving away to nearby large centers. They have worked consistently with the farmer, to the end that he may dispose of his crops at the best obtainable price, and with the lowest distribution expense. And the employment, both direct and indirect, for which they are responsible, is a significant factor in our national economy.

"Nonsense and rabble rousing"—the Swedish expert hit the nail on the head when he bluntly characterized the Patman Bill in those terms.

By Charles H. Ingersoll
(Of Dollar Watch Fame)

NEW YORK, (Radio Broadcast),—

Professor Thurman Arnold and his assistants are out with a statement that our hope and anchor are in the old Sherman Anti-Trust law.

Ingersoll

They also in the same breath, try to tell why it never busted any trusts, and admit that they are using it only for little malefactors. And all this, while they are literally falling over evidence of **underlying monopoly** that has absorbed half our total wealth and is using our tax system—doing the same to every dollar we currently create! Prof. Arnold is the brain truster who wrote a book to prove there is no monopoly. For this he was given a big monopoly committee and the operation of the Department of Justice.

I congratulate my friend, Roger Baldwin, on his little house-cleaning of the Communists. Several years ago I estimated the Civil Liberties Union was 75% collectivist and its object, therefore, reversed from the defense of our constitution, and **private property rights**, in order to insure **public property rights.** Now I wonder if the Union's objection to communism is only as intelligent as Messrs. Dies, Hearst, McNabe, D. A. R., and American Legion. Or do they think our worse communists are not in Moscow; and that the cause of communism is our ancient brand of basic monopoly right here at home.

Former Admiral Cooper of England says—Suppose Germany does produce a submarine a day. Where will they get the captains and men for them, remembering that the crew goes down with the boat? I wouldn't want the job, nor would I think that branch of the service a very popular one; but out of a few million available conscripts, I should think fifty a day would not be difficult.

Among many ingenious things the new 1940 World's Fair is doing to redeem its 1939 record, one is to overcome a distrust they have discovered on the part of their big wide-world public—fear that they will get gypped, good and proper in little old New York! They will sing songs, write movie scenarios, radio scripts, and have a come-on-to-New York week. But not a word said about all the admission fees, including those to the hotels and boarding places.

LANCASTER, Pa.,—H. W. Prentis jr., head of the National Association of Manufacturers, pleads for unhampered free enterprise:

"The spiritual principle of the sanctity of the individual soul is the foundation of our entire American system of government, economics and civil and religious liberty."

What this country needs is not more miles of territory but more miles to the gallon.

"THE AMERICAN WAY"

While Hitler gives it to Germania, without even butter,
Mussolini with castor-oil, Italia will glutter.
As for Columbia-the-Gem-of-the-Ocean—
Don't forget, The American Way, is not notion!

Roosevelt does the trick, with great promotion,
Cold Cream-Perfumed—is the name of the Lotion.
But it's all one and the same relation;
Plain, with oil, vaseline or cold cream application.

And now that the 'big-ones' have down in the gutter,
Germania, Italia and Espania who groan and mutter—
Columbia, with her sisters, La France and Britannia,
All due for 'a dirty-dose' of war and hunger mania!"

—George Connelly Frend.

TAX DELINQUENCY DEADLINE

April 20th, delinquency date for second installment of taxes, is now less than three weeks away. At that time additional 3% penalty will be added on any unpaid first installment, 3% on second installment and 50 cents charges.

I wish to particularly draw the taxpayers' attention to the fact that the moratorium in regard to tax sales that has been in existence since 1932 has expired, and this spring, in the last week in June, all properties that became delinquent in 1934 will be offered for sale at public auction.

It is, therefore, advisable for all property owners having property subject to sale to carefully consider making a redemption, so as to prevent the sale of their property. They can make a full redemption, or they can redeem on the five year plan or the ten-year plan, but in order to take advantage of the ten-year plan they must make their application to the Auditor before April 20th, as that date brings this plan to a termination. However, one of these three forms of redemption must be in effect before the last week in June to prevent sale of property or it being deeded to the State and subject to sale.

We have collected well over seven million dollars, and I am urging all taxpayers to make their remittance early, and, if they are coming to the Civic Center to pay their taxes to not wait until the last week, so that they may avoid long lines at the windows.

SAM A. CLAGGETT,
COUNTY TAX COLLECTOR.

Promise vs. Practice

Through our reciprocal trade program we have tried to spread our good-neighbor philosophy through many nations of the world. That program has brought results — results not only in better markets for our industrial goods but in better markets for our farm goods — results which are mathematically proved in terms of pounds and bushels and dollars and cents.—President Roosevelt in radio address to A. A. A. farm dinners, March 8, 1940.

ILLEGAL CENSUS QUESTIONS

WASHINGTON, — Republican legalities have exhumed Sec. 14 of the basic census law. And regardless of the merits of the controversy, it appears to prove irrevocably the illegality of census questions about an individual's income. It provides that the inquiries shall be limited to such questions as population, agriculture, irrigation, drainage, distribution, unemployement and mines. It was the only paragraph Harry Hopkins did NOT mention in defense of his proposed questionnaire.—Ray Tucker.

HEALTH-GERMS

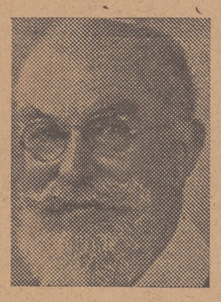
Rheumatism And Arthritis

SOME CAUSES

LOS ANGELES,—Damp, foggy weather, which closes the pores of the skin and prevents perspiration, or "skin respiration", often produces toxemia. Bad plumbing; bad air; lack of sunlight; nicotin in any form, dopes and "pain-relievers", are all causes. Sudden Chilling of the body; putting ice, cold drinks or food into system; worry; fear; lack of sleep; serum and vaccin inoculations; and alcoholic poisons—whether taken as "liquor" or made in the intestins; may bring about the lowered alkaline reserve which is the forerunner of rheumatism and arthrities.



Dr. Geo. Starr White

Wrong eating is a prominent cause. Heavy starch consumption; refined sugar; "tombstone" (white) flour; yeast fermentation in the intestins; or insufficient fresh and raw foods and over-consumtpion of boxed, bottled, pickled and canned food; are some common causes. Aluminum kitchen-utensils; and baking-powder containing alum; can bring on severe attacks or arthritis and rheumatism, as clinical experience proves. Common table-salt is a prominent cause of these, as well as many other, un-healths.

I am well aware of the fact that all forms of rheumatism, arthritis and neuritis are now considered the result of some "infection". This is probably true. But the above enumerated causes and conditions, make the body **susceptible** to the infection.

A bad stomach usually precedes rheumatism.

GREEN'S A CAPELLA CHOIR

By Genevieve de Aryan

The Hoover A Capella Choir under the direction of Myron B. Green, again crowned itself with glory at its last concert given in Woodrow Wilson Junior High School Auditorium. I never miss an opportunity to hear this group of young voices, as I consider it by far the best organization of its kind in the city of San Diego, and am surprised that it has not received more recognition in the daily papers—but maybe it is the case of the proverbial prophet not being appreciated in his own city. The next time they appear, I intend to appoint myself a committee of one to invite Sally Brown Moody of the San Diego Union to hear this group and give them the kind of publicity they deserve.

"He's Gone Away"—Southern Mountain Song is an old favorite of mine but one could hardly believe their ears when they heard the effects they achieved on "A Peasant and His Oxen". You cannot hear a choir of this type in any program over the radio. It's unexcelled. To think that Mr. Green has succeeded to obtain such marvelous results out of school children in such a short period of training.

Having missed this opportunity, those who did not hear it should watch for the announcement of the next concert. The proceeds of the last one were used to enable the choir to go to Los Angeles and take part in a concert before the National Music Conference Convention.

Refuses to Answer Rent Questions

When the census taking lady came to our house Mrs. de Aryan informed her that she would have to make an appointment to meet me personally to get the census answers. The appointment was made. In the meantime I called Forrest Hieatt, in charge of the San Diego and Imperial Counties district and told him over the telephone that I would not answer personal questions regarding the housing situation, whether I own or rent the house, what its rent is worth, nor the questions regarding my personal income.

"So you refuse to co-operate?" said Hieatt.

"Yes, I refuse to co-operate to violate the Fifth Amendment to the U. S. Constitution."

"You mean to say you won't answer the questions."

"I mean to say that it's none of your damned business."

"But, Leon, do you not think that the government has a right to ask them?"

"That's exactly it, the government is proceeding in the wrong way if it wants to get the right answer to the 'ill-housed and unemployed' problem. The government cannot find the solution by violating the constitution and butting into my private affairs. I am willing to co-operate towards the right solution."

Socialistic Dictatorship No Solution

The government cannot solve the present mess by socking me more taxes. Henry George gave the solution and I shall be glad to co-operate with the government in its application so we will not violate the American constitution nor our pledge of allegiance to uphold it.

TAX AND DESTROY

A recent summary of state tax yields for each year from 1936 through 1939, reveals with devastating finality the real function of chain store tax laws. Taking into consideration only those states which have such laws, it was found that chain store taxes accounted for .39% of the total tax revenue, clearly indicating how insignificant they are as revenue-raising measures.

Obviously the sponsors of chain tax laws are not looking for revenue. They are merely seeking to destroy enterprises which are largely responsible for revolutionary progress in the field of retail distribution. They expect the public to believe that an industry which has brought savings to consumers, running into millions of dollars, is undesirable and should be destroyed. They offer no suggestions for improving service to consumers. Their motto is Tax and Destroy!

What this country needs isn't to get more taxes from the people but for the people to get more from the taxes.

Puffing and blowing, the young man just managed to jump into a carriage as the train left the station.

The middle-aged man in the corner eyed him with scorn.

"When I was your age, my lad," he said, "I could run half a mile, catch a train by the skin of my teeth, and yet be as fresh as a daisy."

"Yes," gasped the young fellow, "but I missed this one at the last station."

OMAHA, Nebr.,—**INTL. FINANCE.** Doubters of part that **Intl. We are reading the first —it is most completely documented book we have ever read. **Not** written from a so-called "Jew-baiting" angle, and without mentioning Organized Jewry's means of spying and communicating, yet the piled up proof from years of compilation from original archives of European Govts convinces any sane person that the "invisible Govt" of the Anti-Christ works—and how!!! We wonder how long those 2 devastating books will remain in Omaha's Public Library!

That the Communism-in-Methodism "exposer" **Rev. Rembert Gilman Smith,** who viciously attacks **Dr. Winrod,** is a provocateur, seems to be verified in 1-26-40 "JEWISH EXAMINER" of Brooklyn, NY, whose editorial page says that **Rev. Smith's work** has approval and support of **Louis D. Brandeis,** Red Bishop Francis J. McConnell, and others.

TIME magazine refers to **Browder** as "a mere front-man", saying that Jew **Benjamin Gitlow,** alleged ex-Communist, names **Jack Statchel** as Red leader number one! Back in July '38, **Dr. Winrod** (whom Organized Jewry, Reds, NUDEALERS, and Modernist-Religionists all accuse as being an Anti-Semite) delivered a radio address wherein he said: "I have consistently opposed the apostate, atheistic, Communistic Jew. I have opposed him in the past. I shall oppose him in the future. I have opposed such **secret masters** as **Alexander Bittleman** and **Jack Statchel,** who actually control the Communist Party of America." SOCIALIZED MEDICINE

SOCIALIZED MEDICINE is said to be a New Deal for medicine but it will result in a **RAW DEAL** for the public, to the tune of $850,000,000 a year.

Socialized Red Medicine is a flagrant violation of **CONSTITUTIONAL RIGHTS and RELIGIOUS LIBERTY.** Under Socialization only the Orthodox Medical Profession will be recognized and from it only such doctors as are willing to submit to regimentation will be accepted. **How, then, will you be permitted to have the doctor and the method of healing of your choice, since there will be no choice?**

Under Socialized Medicine **"preventive"** medicine will flourish. **"Preventive"** medicine is a **euphemistic term**—a way of describing an **offensive** thing by an **inoffensive** expression. Today medicine knows only one system of "prevention", that is by way of the inoculating needle—vaccines, serums, inoculations.

The following pamphlets: **TOWARD A HEALTHY AMERICA—THE FIGHT ON CANCER—BEHIND THE SYPHILIS CAMPAIGN—DOCTORS, DOLLARS AND DISEASE—WHO CAN AFFORD HEALTH?**— are published by the Public Affairs Committee for the purpose of popularizing Socialized Medicine. **DO NOT BE FOOLED BY THIS VICIOUS PROPAGANDA.**

"The rabies racket is the Big Bad Wolf of the veterinary profession". says William A. Bruette, former Assistant Chief of the Bureau of Animal Industry.

Petitions are being circulated to request Congress to institute an impartial scientific investigation of the whole question of the manufacture and use of **rabies vaccine. ASK FOR YOURS. WE HAVE THEM.**

"De ARYAN COMMENTS"

(Continued from Page One)

consequences with those 11 milion unemployed and the dictatorship which we already have in these United States.

Dictatorship

Did you not know that we have the dictatorship of the proletariat? But you say that dictatorship can't exist where we have freedom of speech and freedom of the press. You know we have no freedom over the radio, our speeches are censored. Henry Ford and every employer has found out that there is no freedom of speech in America but that the dictatorship of the proletariat, organized in labor unions, prevails under the Wagner Labor Relations Act which has been upheld by Mr. Roosevelt's Supreme Court after he made his personal appointments to that body. Henry Ford discovered that he is not permitted to assemble with his employees and discuss labor relations with them, explain to them why it would be more advantageous to them to co-operate directly with him to improve their labor conditions in place of joining a labor union. If this is not denial of the fundamental right of freedom of assembly and freedom of speech, what is it? If the employees are not free men who can chose to assemble with their employer and discuss their mutual problems, but must delegate that right ONLY to the labor union and to none else, what is it but dictatorship of the proletariat, organized in labor unions.

Census Snoopers

Now another infringement of the constitutional rights as expressed in the Fifth Amendment is being perpetrated upon us. The Census taker is asking questions regarding our income and how much rent we pay, or how much our lot and house is worth. The San Diego Union is ridiculing the opposition of Senator Tobey and others to such infringement by saying that people who made out their income tax statements disclosed just such personal items. That reminds me that when Henry Ford refused to sign up under the NRA the San Diego Union came out editorialy and denounced Henry Ford as an unpatriotic American. The Fifth Amendment to the constitution protects the individual citizen against being deprived of personal liberty. To force a person to disclose personal affairs is to invade his privacy. The idea that it is necessary in order to find out the unemployment status is far fetched. This administration has artificially prolonged the unemployment emergency by assailing business, preaching class hatred and persecuting the most active creators of business and of employment on such a scale that even the small businessman is penalized the moment he employs somebody. He has to write so many reports, pay so many additional taxes that he can make very little profit, especially when he has to devote so much time helping all the various bureaucratic snoopers go through his accounts and check up on his books. He is interfered with in his business right and left. Then the government proposes to enter business and compete against him, making him pay taxes to make up the deficit for the government. An administration that has violated the first principle of economics, which is to give full liberty to business to make a profit and expand, will not improve business by asking personal questions of the individuals of small means who pay no income taxes.

Confiscatory Dictatorship

But if I were planning a dictatorship and were planning to go to war, not yet today, because I was not yet ready, but some time, as Mrs. Roosevelt indicated with her comment when she said we have no reason to get into the war—as yet; if I were planning to go to war it would come in mighty handy if I knew just how much cash you have and what your house is worth, the moment I would pass a law to force you to lend the government money and buy war bonds. Then of course, an emergency would be declared and in an emergency the census figures would become available to the Treasury department to assess every person a certain percentage of their income and force them to buy war bonds by mortgaging their property. The war department has worked out just such a law to be passed as soon as war is declared where everybody will be forced to buy war bonds and mortgage his property to buy the bonds.

I am going to stand on my constitutional rights just as I stood on my constitutional rights when I refused to sign up with the NRA. I shall not answer personal questions about my personal affairs and quote the constitution as the basis of my refusal. When the U. S. constitution is no longer valid and we are sent to jail for standing on our rights, we will know that dictatorship is here in fact. They say we should fight Hitler to save democracy, in America we have to fight those who deprive us of our constitutional rights to save democracy.

The difference between dictatorship and American citizenship is that the citizen is sovereign. But as such he must exercise his rights and prerogatives or else he loses them and his servants become his boss. Both the state and the federal officials are our hired hands. We have the right and the duty to hould them to account. The moment we let them run wild, they will spend our money and pack our courts with their own kind and then we have dictatorship. And the time to call a halt to this wild orgy of encroachment is right now, before they get us into the war by the back door. Once they declare war it will be too late.

We Are in the War

Germany has issued a white book accusing Ambassadors Kennedy and Bullitt with complicity in starting the war in Poland. Naturally, the state department denies it. But Congressman Fish asked for an investigation to get at the facts. I don't believe he'll get the investigation. In the meantime I read in the TRIBUNE-SUN of last Monday the National Whirligig column in which Ray Tucker writes from Washington, and nobody could say that his report is Hitler propaganda, as they say about the disclosures about Kennedy and Bullitt. Tucker states: "If every community in the nation could put a delegation of intelligent men and women back of the scenes in Washington for a week or two, there would be a sharp change in our belief that we are keeping out of the war."

You'll find more on this subject in this issue of THE BROOM.

Police Morale Improves

On previous occasions I have been wisecracking about our new Chief of Police who gave up an estimated $50,000 income expectancy, had he continued on the Long Beach police force till he was eligible for retirement and a pension, to accept this political appointment in our police department. But already in the short time since he took over the job the police morale is improving. I hope I am not premature in making this favorable report. And now I wish you good night.

What Is Religious Freedom ?

Jesus Was Crucifed for Exposing Jewish Religious Racket

WASHINGTON,—Chief Justice Charles Evans Hughes defined religious freedom as the right of man not only to worship as he pleases but also as a guarantee against attacks on an individual's religion in his own home.

He interrupted a supreme court argument to make known his views in a series of rapid questions fired at an attorney defending three members of the Jehovah's Witnesses sect who played phonograph records in Catholic homes, assailing the church.

The three, Newton Cantwell and his twc minor sons, were arrested in New Haven, Conn. on a charge of violating a state law regulating the collection of funds for religious and charitable purposes.

Issue Raised

Hayden Covington of Brooklyn, their attorney, contended that their arrest violated constitutional guarantees of religious freedom. He was reading the text of the record which described the Catholic church as the "greatest racket ever employed among men" and which charged the church with seeking to set up a dictatorship, when Hughes interrupted.

"I suppose these Catholics had some right of religious freedom themselves, did they not?" Hughes asked. "Suppose they have the right to be left alone and not to be attacked with these scurrilous denunciations of their chosen faith. What have you to say to that?"

Attack Denied

Covington replied that the phonograph record was not an attack and that the case did not involve violence in any form.

"You can hire a hall," Hughes resumed. "You can hold a meeting. You can distribute literature. Is it the same thing to go into a Catholic church and deliver these attacks on the Catholic faith? Is it the same thing to go into a person's home and deliver these attacks?

"Is there no limit at all on what you can do because you think you are worshipping God."

Jewish Law Murders Dissenters

Later Justice McReynods remarked to an attentive courtroom:

"Jesus Christ stirred up a good deal of trouble in Jerusalem by **saying things that were unpopular."**

To which Edwin S. Pickett, prosecuting attorney of the court of common pleas at New Haven, replied:

"As I remember my Bible, there was something done about that."

Luther Cited

"Isn't that what Martin Luther preached in a Catholic country?" Justice McReynolds also inquired. "Would he have been prosecuted?"

Pickett replied that "we have freedom of speech".

Justice Murphy, the only Catholic on the bench, listened quietly to this part of the discussion. Earlier he had asked if the principal purpose of going from house to house was not the "dissemination of ideas" instead of the solicitation of funds.

"Yes," Covington said.

"But the conviction was for soliciting funds," Justice Reed remarked.

"Is the receipt of money part of the religious worship?" Justice Stone asked.

"It doesn't say so in the record," Covington responded.

Covington argued that if his clients applied for a permit that would be an "insult to Almighty God and result in their eternal destruction."

He contended their conviction deprived them of "freedom of speech, freedom of press and freedom to worship Almighty God".
